## Message from the CEO

Welcome to a new academic year at Suyog Sunderji Wisdom School.

We believe that children should be taught how to think not what to think. As Plato has rightly said, "Do not train children to learn by harshness, but lead them to it by what amuses their mind".

Having worked in the field of education for a span of twenty-seven years has enabled us to understand the needs of children and parents. Children's first school experiences play a key role in defining their holistic development. We want every child to walk through the doors of the school with a smile, feel the warmth and know that it is a secure environment to be in.

We constantly strive towards making the transition from home to school as smooth as possible, providing safe and well organized classrooms, infrastructure and a staff which is truly dedicated and passionate about early childhood education.

At Suyog Sunderji Wisdom School each child is treated as 'Special and Unique' and the child's natural enthusiasm is fostered through various activity, based on joyful learning programs. Children are given the opportunity to learn through exploration, hands on experiences and play based activities to develop various skills that help them become critical thinkers, knowledgeable and open minded.

We hope to nurture our children into lovely human beings with enlightened minds and compassionate hearts, children who will grow up to make the world a move vibrant, peaceful and beautiful place in which all can live in harmony.

We are indeed grateful to you all for reposing year after year, such complete confidence and entrusting your children to us, to mould them into worthy citizens of the society.

We look forward to working with you and developing a relationship that will assist in the growth of your children.

Masarrat Tavawalla

# IF I HAD MY CHILD TO RAISE OVER AGAIN

If I had my child to raise over again, I would be firm less often, and affirm much more,

I'd finger paint more, and point the finger less,

I'd do less correcting, and more connecting. I'd take my eyes off my watch, and watch with my eyes

I would care to know hikes and fly more kites.

I'd stop playing serious, and seriously play. I'd run through more fields, and gaze at more stars.

I'd do more hugging, and less tugging.
I would be firm less often, and affirm much more.

I'd build self-esteem first, and the house later.

I'd teach less about the love of power, And more about the power of love. It matters not whether my child is big or small,

from this day forth, I'll cherish it all.
